

NEW

AFS-TEX®
ANTI-FATIGUE SYSTEM

The new versatile addition to the AFS-TEX Range

The latest addition to the AFS-TEX Active Anti-Fatigue range provides an extra wide format designed specifically for extended standing locations.

Ideally suited to areas where a larger lateral movement is required, the 6000x is the best anti-fatigue solution for prolonged standing at serving counters, reception desks, work stations, larger width standing desks and many more work or home environments.

The 6000x retains the NEAT* movement inducing features of the rest of the AFS-TEX range, but subtly re-designed specifically for on-the-go work areas.

AFS-TEX® 6000x

The 6000x is also extra durable, perfect for using in more hard wearing environments like warehouses, heavy traffic areas and store locations.

The leather effect PVC outer layer provides protection and tactile comfort.

On your feet all day? - let the 6000x help reduce fatigue and put a smile on your feet!

- Optimum gauge polyurethane construction relieves the strain of prolonged standing by providing a prime mix of mat compression and body support.
- The cushioned yet supportive standing surface reduces the strain on feet, legs knees & back joints that can be caused through prolonged standing.
- The advanced standing surface includes multiple ribbed design features that encourage the regular foot movement and changes in standing position that can increase relief.
- A built-in active anti-microbial ingredient in the mat body and cover will not wash off or wear away and so is effective 24 / 7 for the life of the product.
- Easy to wash and wipe clean.
- Anti-slip base.
- Non-toxic and phthalate free.
- 10 Year Limited Warranty.
- Extra width 23" x 67"
- Midnight Black.

*

Active AFS-TEX NEAT benefits

AFS-TEX designs are based on research into the health benefits of standing and NEAT movements.

NEAT (Non-Exercise Activity Thermogenesis) is the energy expended for everything we do that is not sleeping, eating or sports-like exercise.
